LEAF SUN BED INSPIRED BY NATURE

V.Ryan © 2015 World Association of Technology Teachers

The sun bed is inspired by the shape of a leaf. The leaf is the ideal shape for creating shade and for protecting the user from a passing shower. A number of these sun beds put together, would form a canopy, rather like a forest canopy.

1. What do you think of this design?

1. Describe how the design could be improved. You can include additional units.

3. In the space below sketch the improvements / additions you have described in the previous question.
