THE DISK SANDER, GLASS PAPER AND SANDING EQUIPMENT

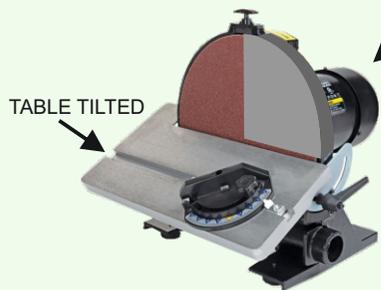

WORLD ASSOCIATION OF TECHNOLOGY TEACHERS <https://www.facebook.com/groups/254963448192823/> www.technologystudent.com © 2021 V.Ryan © 2021

1. Describe the type of work that can be carried out using a disk sander.

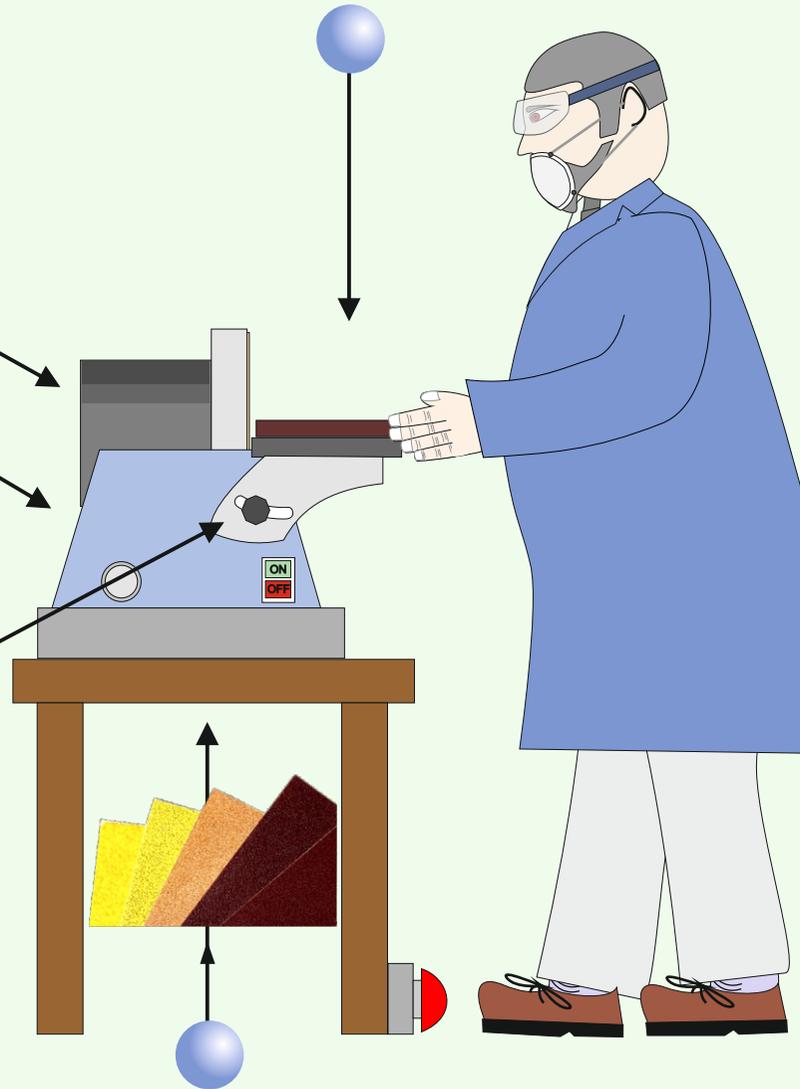

2. Draw a labelled diagram of a typical disk sander. Identify all its dangers.

3. Describe how the disk sander can be used safely. You may want to list safety guidelines.

4. Why is the 'table' of a disk sander adjustable to different angles, as shown below?

5. Glass paper for the 'disk' of a sander and also for hand sanding, is graded according to coarseness / roughness. What are the different grades of glass paper?

8. How does a 'palm sander' differ from a 'sheet sander'? Describe its use.

7. Describe the safe use of a sheet sander.

6. Draw a labelled diagram of a hand held sheet sander.

EXTENSION WORK

Describe the use of a Belt Linisher. You may need to search the internet for information and images.
