STREET NAME PLATE DESIGN

www.technologystudent.com

1. Name and location of selected street:

NAME:

LOCATION:

2. Photograph / sketch of existing street plate:

3. In the space below, write a little about the history of the street. You could explain the meaning of the street name, it's geographical location, what was present before the street was built etc..... It may be a good idea to interview a resident, who has lived in the street for some considerable time.

4. In the space below, sketch two potential ideas, adding notes to explain each design. Your notes should mention how the history of the street and the street name, is seen in it's pictorial design.

FINAL STREET NAME PLATE DESIGN

www.technologystudent.com

In the space below, draw a final colour rendered design for your street name plate.

What do you think of your design ? What do other people think of your design? Consider asking people who live in the street.
