# RECYCLING

The earth's population is increasing dramatically every year. As the number of people on the earth grows, more and more products are manufactured for their needs. This means that greater pressure is placed on the earth's natural resources. We are reaching a point when there will not be enough resources to go round. This is one reason why its is important to recycle.

1. Write one more reason why it is important to recycle our waste materials, such as plastics, glass, steel etc..... The key phrases below, may help you answer this question. If you use a key phrase you should explain it in further detail.

WE SHOULD NOT BE WASTEFUL      IT IS THE RIGHT THING TO DO      RECYCLING PROTECTS  
SETS A GOOD EXAMPLE      IT IS ENVIRONMENTALLY FRIENDLY      THE EARTH'S  
RESOURCES

2. Four recycle symbols are drawn below (A, B, C and D). Which one is your favourite?

---

3. Explain why you selected the symbol as your favourite. Consider, shape, style, colour, simplicity etc....

# PAPER RECYCLING LOGO

4. Paper is used around the school, in almost every classroom. We take paper for granted and in schools we tend to use large amounts. You are to design a Paper Recycling symbol. It will be placed on all the paper recycling bins in the school, to encourage pupils and staff to take recycling paper seriously.
