PRODUCT DEVELOPMENT - BATTERY STORAGE - HAND HELD PRODUCTS

V.Ryan © 2012 World Association of Technology Teachers

1. List eight products that use/need rechargeable batteries.

2. Recent developments in car body manufacture, shows that it is feasible for the body to also act as the battery. What are the advantages of this technological development?

3. Select two hand held products that use rechargeable batteries, that you think could use their body/casing for electrical storage. Briefly explain why you have selected each product.
