The stages involved in the casting of pewter are listed below. They are not in the right order. Using appropriate flow chart 'boxes', complete the flowchart clearly showing the sequence of events and quality control measures.

- REMOVE CASTING
- CUT INGOT INTO SMALL PIECES
- PREPARE MOULD
- WEAR SAFETY CLOTHING
- PEWTER BECOMES MOLTEN
- POUR INTO MOULD
- PLACE IN BOWL OF LADLE
- ALLOW TO COOL
- TURN ON BRAZING HEARTH
