

DESIGN ANALYSIS - FOCUS GROUP DISCUSSION

V.Ryan © 2017

DISCUSS - How could the design be improved?

Group / team work is an important activity, for any business and when designing a product. Working together, and discussing design problems, often leads to potential solutions.

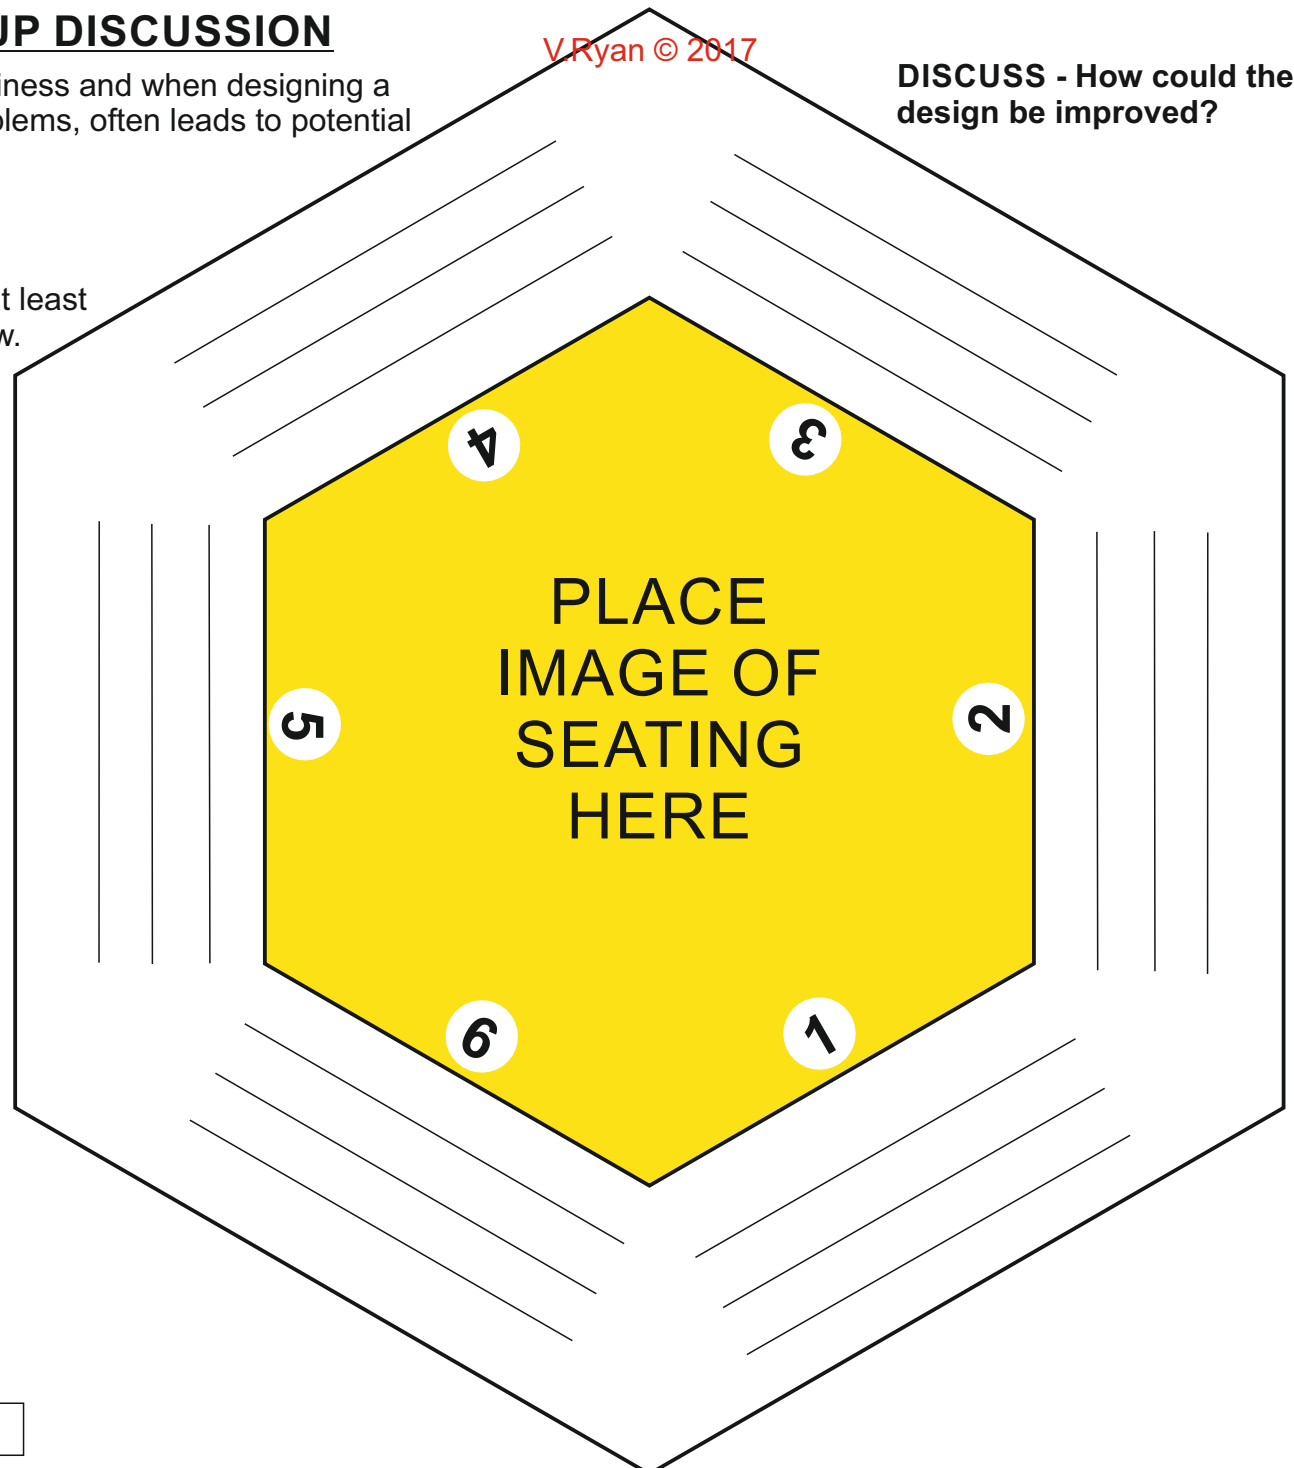

Study the design in the centre of the hexagon.

Each member of the group, is to write a sentence on at least two of the 'Points to Consider and Discuss' listed below.

When each member of the team has written their comments - discuss them.

POINTS TO CONSIDER AND DISCUSS

- Ergonomics
- Aesthetics / style
- Materials
- Features and functions
- Inclusivity
- Economic viability
- Marketability
- Size
- Weight
- Safety
- Construction processes
- Cost
- Sustainability / environmental factors
