This exercise can be printed and used by teachers and students. It is recommended that you view the website (www.technologystudent.com) before attempting the design sheet .
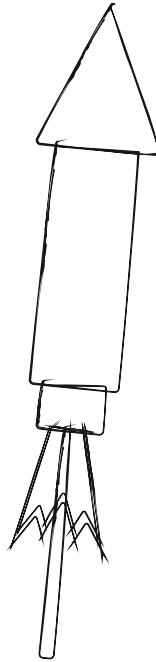

DEVELOPING FIREWORK SAFETY IMAGES

You are to develop two symbols representing fireworks, based on the photographs shown below. An example of a developed symbol has been completed for you.
Complete the development of each symbol by sketching a 'rough' version first, followed by a coloured rendered version.

EXAMPLE

Collect an image / photocopy / print, that you find interesting.

Sketch an outline version. Simplify the shapes and outlines. remove most of the detail.

Draw a precise version, adding colour and shade. Use a limited number of colours, perhaps three or four.
