IT IS ILLEGAL TO DISPLAY THIS WORK ON ANY WEBSITE/MEDIA STORAGE OTHER THAN www.technologystudent.com

LEARNING CLOCK MOOD BOARD

V.Ryan © 2011 World Association of Technology Teachers

Designers often find inspiration in images, pictures, photographs and symbols. A moodboard is a collection of pictures / images / text, related to a design theme. A moodboard is often used by a designer to help him/her design and style products. They are also used by designers as a form of initial research into a product or design.

You have been asked to design a clock face for a learning clock for young children, based on the theme PARTY / FUN. You may be able to start by developing a design from the images, patterns and colours, found in the mood board below.

How could the mood board (above), supplied by a customer, help you design the clock face of a learning clock for young children?
