

# MAINTENANCE OF PRODUCTS - QUESTIONS

**HELPFUL LINK:** <https://technologystudent.com/prddes1/kettles4.html>

Everyday domestic products such as kettles, require maintenance to keep them in safe working order.

1. Label / identify three parts of the kettle that could eventually fail, stopping it working properly.

2. Some parts of the kettle need checking and even maintenance, to ensure that its working life is extended. For each of the parts you named in question 1, explain the checks / maintenance each requires.
