WHAT IS THE TECHNOLOGY PUSH MODEL OF PRODUCT DEVELOPMENT?

1. With regards to the development of products, what is ‘Technology Push’. In your answer, you must give one example of a form of technology, that has been developed and has led to a new product(s).

                                                                                   
                                                                                   
                                                                                   
                                                                                   
                                                                                   
                                                                                   
                                                                                   
                                                                                   
                                                                                   
                                                                                   
2. In the space below, draw a diagram that represents the linear nature of the ‘technology push’ model.

3. Describe a product, developed through the ‘technology push’ model, that has been a failure. Ensure that you explain why it failed.
